## NEW FACILITY FOR NEXT-LEVEL MANUFACTURING

In 2020, Elexon invested \$1.8 million in advanced surface-mount devices (SMD) with x-ray capabilities to meet the growing demand from local customers wishing to manufacture onshore.

Elexon plans to further expand their intelligent manufacturing facility with high-precision equipment worth \$2 million. By January 2022, Elexon will transform into an Industry 4.0 facility that is unrivalled in Australia.

The Elexon Group is a Brendale-based team of innovators involved in the design, development and manufacture of high-tech, bespoke electronics for clients globally.

Elexon works across IOT, defence, pathology, RFID, automotive, mining and battery power management industries and supplies their innovative solutions to major corporations including Woolworths and the National Livestock Identification scheme.

Moreton Bay's skilled workforce and its ability to attract the world's finest talents through enviable lifestyle assets, have been instrumental to Elexon's growing international success.

Elexon is a world-leading advanced manufacturer and the only company specialising in flow monitoring technology for cave mines. Their world-first Cave Tracker System is exported to every continent besides Antarctica.

**The Elexon Group's approach is founded on shared success and collaboration. Moreton Bay's collaborative business ecosystem has been the key to their sustained growth.**

### **FAST FACTS**

A leading manufacturer of high-tech, bespoke electronics

World-leading products exported to six continents

Expanded to 80+ staff amid COVID-19 pandemic

Queensland's most advanced SMD manufacturing line

"Queensland is becoming an important technology hub with many electronics companies. Being in Moreton Bay is a huge benefit because we're close to Australia's newest university campus and the developing technology hub, where we have access to students, startups and other innovative technology companies."

Pieter Kuiper

Managing Director, Elexon Group

## Why Moreton Bay is the only choice for advanced manufacturing businesses that want more.

- Moreton Bay's largest export industry, valued at \$3.3 billion.
- Innovative, purpose-built industrial precincts to accommodate diversified businesses, including hard-to-locate industries, plus 24/7 operations to support international exports.
- Direct access to national and international markets through road and rail connections plus Brisbane's port and airports within 30-45 minutes.
- An innovation ecosystem to facilitate emerging technologies.
- A highly skilled workforce with qualifications in key areas such as manufacturing engineering and world-leading education sector for access to graduate talent.
- Significantly lower industrial land prices and operating costs than other South East Queensland regions and Australian capital cities, affording more investment into innovation and growth.

**Key sectors: industrial engineering fabrication, marine products, building materials, and many other bespoke products.**
